Keep these useful storage tips in mind when it's time to store your AGM battery: 1. Prior to arranging storage, do a thorough voltage check to see what level the battery currently shows. Fully charged REDTOP batteries are around 12.6 to 12.8V, and fully charged YELLOWTOP batteries are about 13.0 to 13.2V. If it is indeed at the top voltage ...

Although AGM batteries are maintenance-free and work well in cold weather, they still need to be checked and maintained during the winter months in storage. All batteries have a natural state of self-discharge, and the worst thing you can do is put an AGM battery away without first charging it. As it discharges, the electrolytes will begin to ...

Bulgarian National Association Essential oils, Perfumery and Cosmetics (BNAEOPC) was founded in 1999. BNAEOPC is a voluntary non-profit association whose mission is to protect and represent the interests of its members and the industry.
