

Who is ARaymond energies?

Cost-effective, screwless and tool-free fastening solutions for photovoltaic systems. ARaymond Energies provides cost-effective clipped fastening solutions for the solar energy market. We design screwless and tool-free solutions to make the assembly and installation of photovoltaic panels faster, easier, and more reliable.

What is a Raymond energy?

Our clips allow photovoltaic panels to snap easily into place without the need for labor-intensive screw and bolt systems. ARaymond Energies designs and manufactures PV solar fastening, grounding, and assembly hardware. Learn more about our solutions for ground-mount, rooftop, carport, and floating PV panel installation.

Why should you choose ARaymond energies?

They ensure a long-term solar installation, and in turn reduce potential risk to PV project investment. ARaymond Energies believes in the importance of renewable energies for our future and is committed to developing breakthrough technologies in order to make the assembly process easier, faster, cheaper.

Conforme a la norma IEC 62446-2, de mayo de 2020, ARaymond recomienda: o Inspeccionar visualmente los productos para detectar corrosión, deformación y rotura anualmente entre el 1.er y el 5.º año tras la instalación. o Ajustar la frecuencia de inspección en función de la experiencia después del 5.º año.
