What are the advantages of using solar technologies in Armenia?

This is according to the law on autonomous producers, which is one of the biggest advantages of using solar technologies in Armenia. Families have joined us in saving. The program "EcoCorner" is on the air of the news radio. The program "EcoCorner" is on t...

How many projects has Solaron completed in Armenia?

Over the course of 8 years, Solaron has successfully launched and completed more than 1400 projects both in Armenia and abroad. Innovation is at the core of Solaron's approach, and we actively integrate innovative technologies and solutions into projects. Solaron's services are available throughout all regions of Armenia.

As of February, 2019, the project has been implemented in 126 communities, with 2083 Solar Water Heaters and 71 PV systems installed. The Project results are apparent: as of 1 July 2019, 1145 autonomous energy producers are connected to the Energy Network of Armenia, with about 17 MW capacity. 88 with 2.43 MW total capacity are in the process of ...

A solar parking lot was built, and roof work was performed with a rather complex construction. I thank both the technical team and the management of "Eco Step" for installing our company's solar plant with high

Armenia solar panel system for home

quality and in a short time. The productivity of the solar plant exceeds the given plan and is producing more than originally anticipated.

Panels Made in Armenia High productivity Solaron Mono Perc 390 Watt panles - ... a battery backup system can allow solar panels to continue generating power during a grid outage. The energy captured and stored in the batteries can be used to power essential appliances and devices in your home.

Solar panels must face in a southerly direction with no shading. We select optimal placement for the solar panels be it rooftop, ground, or integrated into the facility. Furthermore, we recommend that the structure upon which the panels will be mounted is sound as in some cases we have noted that a detailed structure analysis is necessary.

Solar energy for your home and business ... We provide after-warranty service of our systems as well as the systems installed by others. Cleaning. Its recommended to clean the solar ...

Efficiency Monocrystalline solar panel with 320 W nominal power. You can get increased power generation in all weather conditions due to the high efficiency of solar panels. Stable guarantee Presented solar panels are produced in Armenia by experienced professionals at the highest technical production. Our solar systems are internationally certified with CE, EAC, IEC, UL, ...

In 2017, Solaron became the first Armenian company to begin mass production of photovoltaic solar panels., For this purpose, we have established long-term partnerships with organizations and research centers in the EU and China.

If we take into account that the solar system will be operated for approximately 3 decades, then it should be taken into account that there will be a need for periodic maintenance of the solar panels. Experienced specialists can tell you all the problems that may arise from time to time. Cleaning the solar system
