What is Oryx Energy Company?

Seven Summer Camps Just for Adults Oryx Energy Company explores for, produces, and markets oil and natural gas. The Company operates in the United States, the United Kingdom, North Sea, Ecuador, Kazakhstan, Australia, and Algeria.

Why did oryx buy British Petroleum?

With only five percent of the world's oil reserves in the United States, Oryx was also eager at this time to expand its international energy reserves. In January 1990, Oryx paid British Petroleum Plc \$1.1 billion for a portfolio of international oil and gas properties.

How does oryx invest?

We invest across the entire energy landscape, providing the necessary capital, advice, and guidance in management, operations, and finance to create value for our investors through sustainable growth. Oryx operates through a robust set of qualitative and quantitative benchmarks to provide services at the highest level.

Why did Sun E&P become Oryx Energy Company?

But inevitable confusion resulted between Sun E&P and the Sun Oil Company of Pennsylvania, which refined, marketed, and distributed company products. So, in May of 1989, Sun E&P became Oryx Energy Company in an effort to distinguish the independent operation.

Why should you partner with Oryx?

With over two dozen strategic partnerships and collaboration agreements with partner companies, we have global reach and can provide tailor-made services across all geo-markets and every continent. At ORYX, we are partners in shaping a brighter, more sustainable future for generations to come.
