

Australia standalone solar kit

What are off-grid solar kits?

Off-grid solar kits represent a huge leap towards energy independence. At iTechworld, we understand the growing desire for a reliable, eco-friendly power source. Our stand-alone solar systems offer you the freedom to generate and store your own electricity, untethered from the traditional power grid.

Are off grid solar kits reliable?

At Off Grid Solar Kits, we have installed hundreds of reliable, high performing, stand-alone power systems Australia wide. Choosing to work with quality brands, our off grid inverters and solar chargers are reliable and work with all battery types Lithium-ion, Aquion, Agm, Tubular gel OPZV, Tesla Power Wall, and LG Chem, and Redflow.

What is a 5kw stand alone solar system?

A 5kw stand alone solar system lets you operate as your power source. A stand-alone system uses solar electric energy. Hence it is referred to as a stand-alone solar system. These systems are designed for off-grid purposes in remote or rural areas which may not have any form of on-grid electricity or irregular power supply from the grid.
