

# Bahrain solarize solar panels

Where is the new Bahraini solar factory located?

The new Bahraini factory is located in the Bahrain International Investment Zone on an area of 4 thousand square meters where they will produce more than 80000 solar panels per year, while it will contribute to creating 50 jobs as well as attracting more Investments to Bahrain and possibly to other Gulf Cooperation Council countries.

Why is Bahrain launching a solar panel factory?

Mr Rabih Abdullah said that the factory provides solar panels for new projects of the public and private sectors, indicating that the project will produce panels for the Kingdom of Bahrain and the Gulf Cooperation Council countries, especially that the Gulf region is on the verge of using renewable energy.

Is Bahrain's first solar panel company the start of a sea change?

This is good news for Solar One, Bahrain's first solar panels company. Since its founding in 2017, the startup boasts of contributing over two megawatts of solar to the country's energy mix -- enough to power around 380 US homes. It's a drop in the ocean, but it hopefully marks the beginning of a sea change.

Is solar energy suitable for Bahrain?

Bahrain has the opportunity to use solar energy, as it receives an estimated solar radiation of 6 kWh/m<sup>2</sup>/day ( Alnaser et al., 2014 ). The country's global horizontal irradiance is 2160 kWh/m<sup>2</sup>/year, while direct normal radiation is 2050 kWh/m<sup>2</sup>/year ( IRENA, 2014 ).

Does Bahrain have solar irradiation?

Bahrain is a land with a very high solar irradiation which has lately moved the focus on solar photovoltaic energy development, a topic that Solartecc Green Energy did not miss.

Why are there no barriers to solar PV installation in Bahrain?

None of the participants mentioned any reported barriers to installation of solar PV in Bahrain. This is likely because solar panel installation is relatively new in Bahrain and the participants were not clear on the specifics involved. Effective dissemination of information is necessary, as explained later.

The fact that it's two products in one (a solar charge controller and DC to AC power inverter) is also a big selling point. AIMS Power also manufactures quality solar panels in 30, 60, 120 and 230 watt models that are available for shipping at the lowest possible price to Bahrain and surrounding areas.

SUNERGY SOLAR was founded in 2015 on the premise of designing and installing customized solar PV systems to meet the needs of businesses throughout Bahrain. Solar is our single focus. SUNERGY commissions and executes projects of any proportion on a turnkey basis from concept to completion as per the custom requirements of clients.
