De Chinese fabrieken worden immers snel bijgeplaatst. Mogelijk komen er wel wat importbeperkingen, maar de risico's voor een prijsenslag zijn groot. Voor brandstofcelspecialist Ballard Power lijkt dat verkeerd uit te draaien. Het Canadese Ballard werd al volledig weggeblazen in China, maar mikt nu op Europa om op termijn rendabel te worden.

DNV has granted approval in principle (AiP) to a fuel cell concept, jointly developed by Ballard Power Systems and ABB, that can produce three megawatts, or 4,000 HP, of electrical power. Claimed to be a "flexible" solution, this high-power fuel cell unit is expected to meet the energy needs of multi-megawatt scale ships with diverse uses.

Ballard Power Systems Inc., is a world leader in the development, manufacture, sale and servicing of hydrogen fuel cell power systems. Our products and services are used today in various markets, from heavy duty motive power to materials handling, backup power, UAV and rail applications as well as support of other products required through our technology services ...

Der kanadische Brennstoffzellen-Spezialist Ballard Power hat einmal mehr mit seinem Quartalsbericht für lange Gesichter gesorgt. Die Aktie büte daraufhin am Mittwoch knapp ein Fünftel ein.

Ballard power competitors Anguilla

Ballard Power is facing more competition from EV giants and other fuel cell companies. Ballard Power could find long-term success in the heavy-duty vehicle market given the advantages that fuel ...

What design choices has Ballard made with the FCveloCity module that set it apart from competitors products? Ballard's FCveloCity products are really geared towards high usage applications, like buses, trucks, and material handling. In these applications, batteries either take a long time to charge or can't meet the durability requirements.

The company had revenue of C\$20.13 million for the quarter, compared to analyst estimates of C\$33.89 million. 155675 (BLD.TO) Company Profile Ballard Power Systems Inc is engaged in the design, development, manufacture, sale and service of proton exchange membrane (PEM) fuel cell products for a range of applications, focusing on the power ...

Ballard Power Systems hatte von 2018 bis 2022 einen allmählichen Rückgang des Nettogewinns und der Einnahmen zu verzeichnen, wobei die geringsten Rückgänge in den Jahren 2020 und 2021 zu verzeichnen waren. Im Jahr 2023 stiegen die Einnahmen im Vergleich zum Vorjahr um zwei Millionen Dollar, aber der Nettogewinn ging immer noch deutlich um ...

Ballard Power Systems and Element 1, a pioneer in on-demand hydrogen technology, have engaged in a new collaborative project to develop hydrogen power initiatives and bring sustainable energy solutions to wider global markets incorporating heavy-duty transportation, off-road, and marine.

Plug Power partnered with Renault and launched a joint venture in France in Jun 2021. But the company faces stiff competition from Ceres Power, Ballard Power, Bloom Energy, and Doosan Fuel Cell. Here is an in-depth analysis of Plug Power's top ten competitors and alternatives:

VANCOUVER, CANADA - Ballard Power Systems (NASDAQ: BLDP; TSX: BLDP) will hold a conference call on Tuesday, November 5 th, 2024 at 8:00 a.m. Pacific Time (11:00 a.m. Eastern Time) to review third quarter 2024 operating results..
