

Ballard power systems Malta

Who is Ballard Power Systems?

Ballard Power Systems Inc. is a developer and manufacturer of proton exchange membrane (PEM) fuel cell products for markets such as heavy-duty motive (consisting of bus and tram applications), portable power, material handling as well as engineering services. Ballard has designed and shipped over 400 MW of fuel cell products to date.

Is Ballard a stock?

Ballard listed on the Nasdaq Stock Market. Ballard fuel cell stack achieved a power density of 700 watts per kilogram. First fuel cell bus presented by Ballard in Vancouver, Canada. Collaboration agreement between Ballard and Daimler-Benz for the joint development of a compact, high power density fuel cell stack.

What is the power density of a Ballard fuel cell stack?

Ballard fuel cell stack achieved a power density of 700 watts per kilogram. First fuel cell bus presented by Ballard in Vancouver, Canada. Collaboration agreement between Ballard and Daimler-Benz for the joint development of a compact, high power density fuel cell stack. Ballard IPO listed on the Toronto Stock Exchange (TSX).

What are the benefits of Ballard technology?

Ballard's technology offers a wide range of benefits within each of these markets, including lowering costs of energy use, longer operating lifetimes and positive environmental impacts. We are working to accelerate fuel cell technology adoption, committed to sustainable mobility and clean air for everyone. For more information go to

What is Ballard's strategic partnership with Zhongshan broad-ocean Motor Company?

Strategic partnership formed with Zhongshan Broad-Ocean Motor Co., Ltd. of China with an equity investment of \$28.3M. Launch of Ballard's 7th generation FCveloCity™-HD module for motive applications. Ballard signs a long-term engineering services contract to advance Volkswagen AG fuel cell automotive research program.

Ballard Power Systems Inc. is incorporated in British Columbia, Canada. 1986. Development of the first Ballard fuel cell stack operating on pressurized air. 1983. In the course of investigating environmentally-clean energy systems with commercial potential, Ballard began working on the development of PEM fuel cells. 1979

Historical daily share price chart and data for Ballard Power Systems since 1995 adjusted for splits and dividends. The latest closing stock price for Ballard Power Systems as of December 06, 2024 is 1.61.. The all-time high Ballard Power Systems stock closing price was 132.20 on March 02, 2000.; The Ballard Power Systems 52-week high stock price is 4.01, which is 149.1% ...

Ballard power systems Malta

4 ???· Fuel Cell Modules; FCmove ® Family of fuel cell modules designed for integration in vehicles, delivering zero-emission power for heavy duty transportation.; FCwave (TM) Cabinet ...

Ballard Power Systems Inc., is a world leader in the development, manufacture, sale and servicing of hydrogen fuel cell power systems. Our products and services are used today in various markets, from heavy duty motive power to materials handling, backup power, marine and rail applications as well as support of other products required through our technology services ...
