

Why should you install solar panels in Belgium?

With enough solar panels, you will be significantly less dependent on your energy provider and are able to use completely green electricity. Solar panels can also help you with lowering your energy bills. There are two different types of solar panels in Belgium you can install: What Are Solar Thermal Panels?

Where can I install solar panels in Belgium?

For the installation of solar panels on the ground, on a protected building or in other regulated cases, you will have to contact your municipality. There are several companies active in Belgium that install solar panels.

Will the Belgian government grant subsidies for new rooftop PV installations?

Zuhal Demir, the energy minister of the government of the Belgian region of Flanders, said last week on Twitter that subsidies for new rooftop PV installations will be granted in the form of rebates. Demir retweeted an article from the Flemish newspaper De Tijd, in which the details of the program are revealed.

Should solar panels be regulated by the European Directive in 2023?

However, the "Electricity market design" European Directive, adopted in June 2019, encourages Member States to abandon this compensation scheme by 2023. The objective is to ensure that all consumers contribute to the network costs equally, regardless of whether they have solar panels or not.

How many GWP will be installed in Belgium in 2020?

The Belgian National renewable energy action plan fixed a target of 1,34 GWp installed in 2020 in order to reach the national target of 13 % renewables in 2020 set by the European directive. This objective had already been reached in 2011.

How much does a silicon module cost in Belgium?

Electric vehicles are still a very limited part of the existing fleet but the last two years, they are increasing their annual market share. There are no official statistics about module prices in Belgium. After having contacted some installers, a typical silicon module price range for 2017 is around 0,35 to 0,50 EUR/Wp.
