

Bermuda pick my solar

How can solar panels be used in Bermuda?

Deploy solar panels in discrete locations to meet Bermuda Government and satisfy listed building planning regulations. Optimize available ground space and create economies of scale while effectively addressing aesthetic considerations. Construct a dedicated facility designed for solar installation that doubles as a shade provider or carport.

Is Bermuda a suitable location for solar energy?

Bermuda is a suitable location for solar energy in several ways. Approximately 10,000 rooftops in Bermuda (out of a total of about 36,000 rooftops) are good candidates for rooftop solar because they face south and are not obstructed by trees or other buildings.

Who is Bermuda Engineering Company Limited?

Bermuda Engineering Company Limited was founded in 1935 by Gordon Hamilton Burland, a Bermudian renewable energy pioneer and engineer. Back then, he built the first clean energy microgrid in Bermuda and demonstrated bold energy leadership for his time. In 2010 the company was reinvigorated and has been operating as BE Solar since.

Pick My Solar helped us get the information needed for our federal tax rebate, a Dept. of Agriculture grant that our farm qualified for, and helped us understand the payback from our power company. My husband is very analytical, and the Pick My Solar reps always welcomed any questions we had and fully explained all the details. ...
