Established in 2012, Performance Energy Services is an accomplished maintenance and construction company with a comprehensive management team that has over 40 years of experience in the industry. Performance Energy Services strives to bring honesty, safety, and efficiency to every project.

The off-grid PV battery systems at the heart of SHS implementation must be closely studied to determine maintenance risk resulting from a loss of load when energy demand exceeds the system's capacity. Testing the reliability of solar power to determine proper battery size, PV module size, and battery life-cycle estimates will help determine the frequency of service required for SHS ...
