

Brookfield energy Eritrea

What is the difference between Brookfield Asset Management & Brookfield Renewable Power Fund?

It was the subsidiary in which Brookfield Asset Management held all of its renewable energy assets, whereas the Brookfield Renewable Power Fund's scope was limited to the 1,652MW of generation capacity located in Ontario, Quebec, British Columbia, and New England.

Why is energy transition important in Eritrea?

Consequently, Eritrea's energy transition should be informed by multidimensional pathways that respond to diverse realities and are critical to sustaining implementation and adaptability. The world is at the tipping point for bolder steps and immediate aggressive actions.

How much electricity does Eritrea have?

It is also working towards raising the share of electricity generation from renewable energy. According to the 2019 World Bank Global Electrification Database, 50.3 per cent of Eritreans have access to electricity, with electrification reaching 75.6 per cent and 36.6 per cent of the urban and rural population, respectively.

Can Eritrea take a bold leap forward to a sustainable future?

Collectively, there is a chance to take a bold leap forward to a sustainable, inclusive, and resilient future that protects the most vulnerable, with the Sustainable Development Goals as our roadmap. Ms. Sande is the UN Resident Coordinator in Eritrea, while Mr. Wakiaga is the UNDP Resident Representative, Eritrea.
