Canada agile power group

Who is agile power group?

Today,Agile Power Group leads various Distribution,Power ,Water and EVacross the world through their world leading JV partners ,whilst advising our clients on their energy transition to a clean,sustainable future. The best time to plant a tree was 20 years ago.

What is the agile Nations Working Group on fusion energy?

The Agile Nations working group on fusion energy is comprised of the United Kingdom, Japan, and Canada as members with Singapore and Bahrain as observers. The working group has drawn on their own experiences to produce the following recommendations on how to develop a regulatory framework for fusion energy facilities.

How does Ai affect the energy consumption of Canadian data centres?

Every AI prompt requires significant computing power. A single ChatGPT query consumes 10 times more energy than a standard Google search. More advanced AI operations such as generating text or images,exponentially spike power consumption. Canadian data centres' rising energy demands make them a major driver of electricity demand growth.

How will Canada's AI infrastructure impact the Digital Economy?

A flexible approach, combined with federal collaboration, would ensure Canada's AI infrastructure powers the digital economy in a way that aligns with the country's broader sustainability, security, and economic goals. Shaz Merwat, Energy Policy Lead, RBC Climate Action Institute

What energy sources can Canada use to power data centres?

Canada has several energy sources it can draw on to power data centres, but each comes with its own challenges and considerations: Wind and solar: growing sources of power but in the absence of storage, their intermittency makes them unsuitable for data centres that demand consistent baseload power.

Can data centres help Canada build on its AI expertise?

Data centres can also help Canada build on its AI expertise. The country has been a leader in AI research since the 1980s,thanks to renowned academics including Geoffrey Hinton and Yoshua Bengio. Yet,the country's lack of domestic AI infrastructure threatens its leadership.
