

Development, construction, operation, and optimisation of clean, renewable, baseload and dispatchable sources of power, heating and cooling, is at the core of what we do. As a conduit for sustainable infrastructure investment, Deep Energy Capital aims to deliver sustainable, reliable and secure energy to power grids and local communities globally.

Capital Energy strengthens its social commitment to Navarra by signing a new agreement pursuant to its Territories Project. The company and the municipal government will promote interventions tailored to the needs of Ujué and framed within specific lines of action, including the improvement of infrastructure and services, connectivity and ...

Renewable Energy and the Socioecological Fix. The concept of the socioecological fix develops Harvey's influential work on the "spatial fix" (Harvey Citation 1973, Citation 1982, Citation 2001). This concept was used to analyze how overaccumulated capital is absorbed through spatial expansion in pursuit of new markets and resources and through ...
