What is Cellarhead Bess?

The 300 MW/624 MWh Cellarhead BESS will be connected to National Grid's Cellarhead substation in the West Midlands and will play a critical role in stabilizing the UK electricity grid. The project, unveiled earlier this year, is developed by Atlantic Green in partnership with system integrator Ameresco and clean energy manufacturer Envision Energy.

How much does Cellarhead Bess cost?

As part of the Cellarhead BESS project, it entered into an EPC and O&M deal with Ameresco, involving battery supply, balance of plant, warranty, and availability guarantees. The EPC full wrap price stands at around \$249 million, the companies revealed in May.

When will 'Cellarhead' be built?

Construction of the project, dubbed Cellarhead, is set to kick off in the first half of 2022, with plans to connect the project to the grid in the second quarter of 2024. The project is to have estimated annual revenues of £42 million, and an estimated annual EBITDA of £35.5 million.

Which Bess sites are in the UK?

Other large scale BESS sites in the UK include Zenobe Energy's 100MW/107MWh project in Capenhurst, Chester, Harmony Energy and Fotowatio Renewable Ventures' 99MW/198MWh Clay Tye site and a 100MW battery storage facility in Ireland developed by Lumcloon Energy and South Korea's Hanwha Group.

The Cellarhead BESS project will be connected to National Grid's Cellarhead sub-station and will provide the UK with. FRAMINGHAM, Mass., May 23, 2024--Ameresco, Inc., (NYSE: AMRC), a leading ...
