chameleon particles to escape from the sun resulting in a solar chameleon flux. This possibility in turn opens up a new avenue in the detection of DE and it has been explored in several works [37-41]. In this work we too explore the above avenue but in a different setup. The solar chameleons escaping the Sun spread out in all directions.

Panther Chameleons are native to Madagascar, but have also been introduced to Réunion Island somewhere between 1750 and 1836. They were first brought to Réunion by sailors who left them at the landing port of the island during that ...

We discuss the case $L = 2.4 \times 10^{-3}$ eV, the dark energy scale, $n = 1$, and chameleon production only in the tachocline in detail: for $v_m \leq 10^{5.9}$ we find the chameleon luminosity $L_{\text{cham}} / L_{\text{sol}} = 0.1$ of the visible solar luminosity for $v_g = 10^{9.9}$. With growing v_m one passes a zone of enhanced production since $m_{\text{eff}} \propto P^{\frac{1}{2}}$. We find $L_{\text{cham}} / L_{\text{sol}} = 0.1$ for ...

We have then used our revised solar chameleon flux to derive a novel bound on the chameleon-photon conformal coupling strength β_{γ} by demanding that the total luminosity carried by solar chameleons does not exceed 3% of the solar ...

Veiled Chameleons or Yemen Chameleons are native to Yemen and Saudi Arabia. There are also introduced

populations in Hawaii (thought to be eradicated but still persisting), California and SE and SW Florida, USA. They primarily prefer montane subtropical to tropical vegetation in the deep valleys (called wadis), in the Hijaz Mountains in Saudi Arabia and Yemen. Since Yemen is ...

I have a panther chameleon and I "ve set the lighting with an Exo Terra Solar Glo(125 W).I know that it provides both levels of UVA & UVB.So does it mean I just need one Exo Terra Solar Glo instead of one UVA bulb & one UVB bulb?

Dark energy models, such as the chameleon, where the acceleration of the expansion of the Universe results from the dynamics of a scalar field coupled to matter, suffer from the potential existence of a fifth force. Three known mechanisms have been proposed to restore general relativity in the solar system and the laboratory, which are the ...
