Le transport de munitions, d'explosifs et de certains gaz comprimés entraîne toujours des risques. Ces cargaisons sont considérées par la loi comme des matières dangereuses. Leur transport fait l'objet de règles spécifiques. Le transport des matières dangereuses relève de la compétence des régions: Wallonie Bruxelles-Capitale

In schools, only small batteries fit in the container, and in the other collection points also medium-sized batteries. For large and damaged batteries, Bebat developed a special container for recycling centres. The Bebat drums have been given a smart lid, which can measure how full they are. When the drum is full, it is automatically collected ...
