Redback procurement. Australia has selected a South Korean IFV derived from the K21 platform to replace its current fleet of 403 M113AS4 armoured personnel carriers, some of which go back to the 1960s. Known as the "Redback", this decision was announced under Project Land 400 Phase 3 - Land Combat Vehicle System (IFV).

Australia's Redback procurement aims to replace its obsolete M113 IFV fleet. The 129 Redback units will join a current force comprising 100 active units of Boxer 8x8 multi-role armoured vehicles, procured from the German defence supplier, Rheinmetall in 2021. "The Redback will be a major enhancement to Australia's

defence capabilities, indicating the ...
