

Croatia smartflower solar system

What is smartflower solar?

SmartFlower Solar produces unique, ground-mounted solar panel systems that include a sun tracker and a number of other high-tech features. This 'smart' solar panel system is an all-in-one, self-sustaining system that differs greatly from the traditional monocrystalline or polycrystalline rooftop panels.

Are smartflower solar panels a good choice?

If you care about design and ease of use more than cost-effectiveness, and also do not need to cover all of your energy needs with one system, then the SmartFlower solar panel system can be a good option for you. Alternatively, a rooftop or traditional ground-mounted solar panel system will be much more affordable and practical for most consumers.

What makes the smartflower different from other ground-mounted solar panels?

The Smartflower offers two unique features that distinguish it from other ground-mounted solar panel systems with tracking capabilities. The first is that it has a self-cleaning function, which ensures that dirt or other grime on the panels won't cause reduced energy production. The second is that it's self-contained.

Where is smartflower Solar Flower installed?

However, it has been installed at a handful of U.S. houses, in addition to organizations like the Detroit Zoo and Mary Baldwin University. The U.S. division of Smartflower is currently based in Boston, Massachusetts. How is the Smartflower solar flower different from other solar options?

Is smartflower a solar-powered robot?

Smartflower extends past the realm of ordinary solar projects, presenting itself as a sophisticated solar-powered robot. According to Gordon, this innovative device is capable of producing up to 6,500 kilowatt-hours annually, all while having an aesthetically pleasing design.

How much does smartflower solar cost?

When comparing these costs to the average price per watt for new solar installations, which typically falls within the \$3 to \$4 range as of 2023 based on national averages, Smartflower's pricing is approximately three to four times higher than that of standard rooftop solar systems.

Smartflower is the innovative sculptural solar flower with advanced photovoltaic solar panels that open and close to cleaning itself for maximum efficiency. ...
