What happened to thornova solar?

With this in mind, we have decided to move past the Sunova Solar brand and continue our future as Thornova Solar. Our latest high-density PV panels stand for exceptional electricity production and are used in applications ranging from floating solar systems to lowlands and alpine altitudes.

Are thornova solar modules reliable?

Our management team has extensive experience in the solar industry and has established relationships with business partners in the U.S. and around the world. Thornova solar modules have proven reliability and performance, with up to 30-year performance guarantees.

Where is thornova solar based?

US-based solar manufacturer Thornova Solar has started producing solar modules for the US market at a manufacturing plant in Indonesia. The new module production lines have a 2.5GW nameplate capacity and can produce both PERC and n-type technologies. The facility, located on the island of Batam, features fully automated technology.

Is Sunova solar a subsidiary of thornova solar?

Chinese photovoltaic and energy storage solutions supplier Sunova Solar Technology Co Ltd announced on Thursday that it will unite with Thornova Solar, its sister brand used in North America and Mexico, and move forward with a new name. Solar cells. Author: Jeff Kubina. License: Creative Commons, Attribution-ShareAlike 2.0 Generic

Why is thornova solar moving to Indonesia?

In response to U.S. tariffs placed on solar modules imported from Southeast Asia, Thornova Solar has shifted solar PV manufacturing to Indonesia. Thornova Solar customers in the U.S. market will be served by two lines with a name plate capacity of 2.5 GW each.

Does thornova solar have a US market?

Thornova Solar customers in the U.S. market will be served by two lines with a name plate capacity of 2.5 GWeach. "The US is the most important market for Thornova Solar," says William Sheng, CEO of Thornova Solar.

Thornova Solar TS-BB54-410W is a PV module fit for both residential and commercial applications. Thornova Solar engineers made the All Black series durable and efficient while minimizing the amount of useful space required for their operation. The Passivated Emitter Rear Contact (PERC) technology ensures excellent power output.

With its 3 rd quarter 2024 report, Bloomberg New Energy Finance (BNEF) now has listed Sunova Solar as a Tier 1 module manufacturer for a full year. While other manufacturers failed to fulfil the new criteria of delivering minimum 6 projects with at least 5MW in size or have come into turmoil due to the current difficult business situation, Sunova Solar and Thornova Solar remain well ...

The Thornova 580W Bifacial Solar Panel | TS-BGT72 offers an excellent 22.45% maximum efficiency. Ideal for ground-mounted solar arrays. Bifacial solar modules harvest up to 25% more PV energy from the ground-facing side. Comes in anodized aluminum alloy frame. 15 Year Product Quality & Process Warranty / 30 Year Extra Linear Power Output Warranty.

California-headquartered Thornova Solar has started production of solar and modules at a factory on the Indonesian island of Batam. Thornova Solar's 2.5 GW production lines will supply the U.S. market with modules ranging from 400 W to 720 W, using passivated emitter and rear cell (PERC) and n-type technology.

Thornova Solar is committed to embracing change, working as a team, being strong, being bold, being ambitious and being our own heroes. Together with our mission to become the most customer-centric energy enterprise, this makes us a trustworthy and sustainable long-term partner for our customers and all other stakeholders alike.

Hi Those panels seem really interesting at 167 us \$ (228\$ Cad), but is the spec sheet is wrong? They claim: Module efficiency = 22.5% Wind load (5000 Pa) and snow load (8100 Pa). This is way higher than usual panel. 500W in a dimension of ...

Frankensolar Americas has sold more solar grid tied equipment than any other Canadian Solar Distributor. Established in 1990 in the Franken Region of Bavaria, People and the Environment have been at the Heart of Frankensolar's Corporate Culture.

Sunova diventa Thornova. Per standardizzare il suo marchio a livello globale, Sunova Solar ha deciso di unirsi al suo marchio gemello Thornova Solar già utilizzato dall'azienda in Nord America e Messico. Thornova, basato sull'eroe del pantheon norreno Thor, rappresenta perfettamente i valori dell'azienda ed è quindi un prezioso patronimico.

Sunova / Thornova Solar exhibiting at Intersolar Munich, booth A3.240; Sunova Solar Technologies Co., LTD - operating under the brand names of Sunova Solar and Thornova Solar - was rated 3AA2 by Dun & Bradstreet on April 10, 2024; Sunova Solar becomes Thornova Solar; Sunova Solar still listed as Tier 1 module manufacturer by BNEF

Sunova becomes Thornova. To standardise its branding globally, Sunova Solar has decided to unite with its sister brand Thornova Solar already used by the company in North America and Mexico. Thornova, based on the Norse pantheon hero Thor, represents perfectly the company values and is hence a valued namesake.
