How do job seekers rate their interview experience at Daystar Power Energy Solution? 100% of job seekers rate their interview experience at Daystar Power Energy Solution as positive. Candidates give an average difficulty score of 3.3 out of 5 (where 5 is the highest level of difficulty) for their job interview at Daystar Power Energy Solution.

# Daystar energy solutions Bangladesh

The Daystar Energy 100MW Agrivoltaic Solar project is a solar/Hemp agriculture combined project. We have been granted a license to grow industrial cannabis (hemp) which we will not only use to generate carbon offsets (approx 6500t/year+) but biochar (soil rejuvenation) and graphene from the bast fibre (for possible use in our battery technology).

Bangladesh receives on average 3.5-4.5 peak sunlight hours a day with irradiation of 5 kWh/m<sup>2</sup>, with the South receiving maximum intensity. According to the Bangladesh Power Development Board, the country has the potential to generate over 50 GW of renewable energy from sources like solar, wind, hydro, and biomass.

Daystar Power specialises in providing solar power and energy efficiency solutions for businesses in the commercial, industrial, and agricultural sectors that result in significant reduction of power costs, diesel consumption and pollution.
