

Ecoefficient solutions Guinea-Bissau

3 ???· In 2025, the question isn't just about how we can increase food production - it's how we can do so in a way that minimises our impact on the planet and maximises the efficiency of every acre. This is where innovation intersects with necessity - new solutions that won't just improve productivity, but also address the global crises of our time.

12 September 2023, Bissau, Guinea Bissau - With a vision to pre-emptively react to crises and implement sustainable development measures, the ECOWAS Commission today launched the Guinea Bissau interventions under the Fund for Regional Stabilisation and Development in Fragile Regions within ECOWAS Member States (FRSD).

At Ecoefficient Solutions, we like to help Kiwis save money and save the environment - anywhere they happen to be. We're based in Hawkes Bay, but we serve clients all across the Lower North Island. We've installed solar panels in Tauranga, Taupo, Rotorua, Gisborne, and plenty of out-of-the-way places in between. It doesn't matter how ...

We have received Singapore Green Building Product (SGBP) certifications for several solutions and we are the first and the only elevator and escalator company to have all certifications with the highest possible "Leader" ratings. The SGBP-certified solutions are recommended for Green Mark-certified buildings in the Asia-Pacific region.

Since 2021, the EU and Guinea-Bissau have been implementing a 6-year development program, worth about EUR112 million, to support key areas such as education, the green economy, and good governance. Guinea-Bissau and the European Union (EU) signed, Thursday (May 4), a EUR17 million financing agreement to support the education and...
