

Ecuador cellevia power

Where can the cellevia power supply unit be used?

Thanks to extensive product portfolio, the CELLEVIA power supply unit can be used in almost any industry: electronics, telecommunications and electrical engineering. Transfer Multisort Elektronik sp. z o.o. is an importer of Cellevia Power products.

What is cellevia power?

CELLEVIA POWER is a brand of switching network adapters and desktop and watertight power supplies (for LEDs). Those power supply units have long life and high quality. Thanks to extensive product portfolio, the CELLEVIA power supply unit can be used in almost any industry: electronics, telecommunications and electrical engineering.

How much power does Ecuador need a year?

Electricity demand grows by 200 MW every year, meaning Ecuador should add 250 MW or 300 MW of new power generation each year. However, Ecuador has added minimal additional generation in the last three years.

Will Ecuador have a power shortage in 2023?

Ecuador is experiencing power generation shortages in 2023, and analysts expect them to extend to 2024. The Energy Ministry and CELEC plan to issue tenders to add additional generation. Future projects under consideration include hydro, geothermal, wind, and biomass.

How much energy does Ecuador produce in 2022?

In 2022, Ecuador's generation capacity was 8,864 MW, of which 5,425 MW (61 percent) corresponded to renewable energy and 3,438 MW (39 percent) to non-renewable energy sources (fossil fuels derived from oil and natural gas).
