El Salvador elpac power systems

How does EDP work in El Salvador?

By shifting a significant amount of power supply to natural gas,EDP reduces El Salvador's reliance on diesel and heavy fuel oil-fired power generation,offsetting 600,000 tons of carbon dioxide emissions per year,and provides grid support to facilitate more renewable energy penetration,further diversifying the country's energy mix.

What is ELPAC iccnexergy?

Elpac is ICCNexergy's premier line of reliable power solutionssold across a broad range of market segments,including medical,data communications,IT and industrial. How many items for purchase or for quote? Have your own formatted spreadsheet?
