

"Eleo is dedicated to advancing off-highway electric vehicle technology," said Bas Verkaik, CEO at Eleo. "Our battery packs provide a practical alternative to internal combustion engines, supporting the global transition towards net-zero emissions." Eleo battery packs are designed to support full range electrification for off-highway OEMs.

Helmond-based startup Eleo has developed a solution. Electrification of heavy machinery such as excavators and combine harvesters is still in its infancy, largely because of the complexity and cost of the required battery packs.

Battery solutions specialist Eleo (formerly Spike Technologies) has announced its plans for a "considerable expansion." The Helmond-based manufacturer of advanced battery systems has broken ground on its new production facility at the Automotive Campus in Helmond.

Eleo battery packs are designed to support full range electrification for off-highway OEMs. With the backing of Yanmar, Eleo provides scalable manufacturing and supply chain security to meet customer demands.

Helmond, The Netherlands (January 26, 2023) - His Majesty King Willem-Alexander of the Netherlands performed the opening ceremony for ELEO's new battery facility. In front of more than 250 guests at the Automotive Campus in Helmond, the Netherlands, the King used an electric excavator to unveil the first battery module produced by the plant.

Eleo battery packs also feature a flexible, modular design that accommodates space constraints, with both horizontal and vertical placement options. These battery packs offer a scalable voltage range from 50V to 720V ...

Helmond, The Netherlands (January 26, 2023) - His Majesty King Willem-Alexander of the Netherlands performed the opening ceremony for ELEO's new battery facility. In front of more than 250 guests at the Automotive ...

Eleo battery packs also feature a flexible, modular design that accommodates space constraints, with both horizontal and vertical placement options. These battery packs offer a scalable voltage range from 50V to 720V and a maximum continuous power output of up to 90 kW, providing robust power potential and versatility for a wide range of ...

ELEO and Conneq have signed a new long-term agreement regarding the supply of ELEO battery systems for Conneq's fully electric AS15 skid-steer loader. The deal involves an initial delivery of at least 1,000 systems in the coming three years. The Conneq AS15 has been in production at the company's facility since late 2020 and will now get into mass ...

Conneq developed from scratch an electric loader that makes physical work such as paving or demolition jobs much easier. To do this, in 2019 Conneq sought cooperation with ELEO, which makes battery systems for loaders. ELEO will supply at least one thousand battery systems over the next three years.

"Eleo is dedicated to advancing off-highway electric vehicle technology" said Bas Verkaik, CEO at Eleo. "Our battery packs provide a practical alternative to internal combustion engines, supporting the global transition towards net-zero emissions." Eleo battery packs are designed to support full range electrification for off-highway OEMs.

Eleo, a Yanmar company, has unveiled a range of battery packs that it said are tailored to the specific requirements of low-volume, high-diversity off-highway vehicles and equipment. Engineered for use in demanding ...

Eleo | 10.235 Follower:innen auf LinkedIn. Eleo, a Yanmar company, manufactures a full range of battery packs, specifically designed for off-highway applications. | Eleo is the off-highway EV battery pack specialist, our battery packs offer versatile configurations for simple, practical, and fast integration. We're helping the world work towards net-zero, by making off-highway EV ...

The Eleo battery packs address a notable gap in the off-highway market. They enable simple, practical, and fast integration to support off-highway OEMs in electrifying their entire product line with the same range of ...

With that, the battery system was ready for the market. Verkaik: "Last year we used the batteries at over twenty organizations in their applications." Earlier this year, the company introduced a new name: ELEO. To mark its readiness to become a leading European manufacturer of advanced battery systems, Verkaik points out.
