How do I set up an ESS system?

There are a few different ways to set an ESS system up. A combination of these are possible as well: See below drawings to get an idea of all possibilities. The first drawing shows the wiring when a MultiPlus-II is used; and the second one shows how it is wired with a MultiPlus or Quattro.

Do Encharge storage systems provide backup power?

Encharge storage systems are capable of providing backup power when an Enphase Enpower™ smart switch is installed at the site. For installing Encharge with 3rd party PV inverter please refer to the planning guide document on Enphase Energy Storage System for third party PV invert-ers online on Enphase website.

How do I use ESS battery life?

Connect to AC when available, keep batteries charged: Use ESS Assistant and select the "Keep batteries charged" mode. o Not available in the ESS System yet, but it will be implemented. The ESS BatteryLife feature will make sure that the batteries are not unnecessarily cycled around a low SoC.

What type of inverter/charger does the energy storage system use?

The Energy Storage System uses a MultiPlus or Quattro bidirectional inverter/charger as its main component. Note that ESS can only be installed on VE.Bus model Multis and Quattros which feature the 2nd generation microprocessor (26 or 27). All new VE.Bus Inverter/Chargers currently shipping have 2nd generation chips.

What is included in the Encharge™ storage system?

The Encharge™ storage system includes the Enphase Encharge Battery(ies) with integrated Enphase IQ™ Microinverters. The Enphase IQ Envoy™ communication gateway measures PV production and home energy consumption.

How do I install an Encharge battery?

) Attach the battery to the mounting bracket aligning the screw hole at the bottom of the battery with the screw hole at the bottom of the bracket. Tighten the bottom screw to 8Nm (70.8 lb-in).) To record the installation of each Encharge battery base unit, scan the serial number label using Enphase Installer Toolkit™ and your mobile device.
