

Equatorial Guinea smartflower solar panel

What is smartflower solar?

SmartFlower Solar produces unique, ground-mounted solar panel systems that include a sun tracker and a number of other high-tech features. This 'smart' solar panel system is an all-in-one, self-sustaining system that differs greatly from the traditional monocrystalline or polycrystalline rooftop panels.

Are smartflower solar panels a good choice?

If you care about design and ease of use more than cost-effectiveness, and also do not need to cover all of your energy needs with one system, then the SmartFlower solar panel system can be a good option for you. Alternatively, a rooftop or traditional ground-mounted solar panel system will be much more affordable and practical for most consumers.

What makes the smartflower different from other ground-mounted solar panels?

The Smartflower offers two unique features that distinguish it from other ground-mounted solar panel systems with tracking capabilities. The first is that it has a self-cleaning function, which ensures that dirt or other grime on the panels won't cause reduced energy production. The second is that it's self-contained.

How big is a smartflower solar panel system?

Rooftop solar panel systems may need to be customized to account for several variables like roof type and space availability, but with the ground-mounted SmartFlower module, you have the freedom to install the system wherever there is sufficient exposure to sunlight. The unit itself is 194 square feet.

How much does a smartflower Solar System cost?

If we consider the price per watt for new solar systems is generally in the \$3-\$4 range in 2023 according to national estimates, then a Smartflower system costs between three and four times as much as conventional rooftop solar. And that's with the 40% bump in energy production from Smartflower's dual-axis tracking already factored in.

What is the warranty on a smartflower solar panel system?

The SmartFlower solar panel system has a system warranty of 5 years and a module performance warranty of 25 years. This also differs from other solar panel systems that have 20 to 25-year warranties for both the system and performance. Even most ground-mounted systems with sun-tracking capability have 10-year system warranties.

¿Qué es el Smartflower Plus? El Smartflower Plus es el mismo sistema con una batería y un inversor solar integrados que pueden usarse para dar energía a un sistema de energía solar híbrido o a un sistema desconectado de la red completamente independiente..
