

Farmhouse photovoltaic panel scam

Is home solar a scam?

Scams are a blight on the solar industry, but that doesn't mean home solar itself is a scam. Here are some tricks to avoiding solar scams, finding reputable installers, and enjoying the benefits of home solar. If you only listen to one sales pitch, it can be easy to get sucked into a scam.

Are free solar panels a scam?

Know that "free" or "no cost" solar panel offers are scams. The federal government does not install solar systems in homes for free. If you're considering whether solar energy is right for you, check out the Department of Energy's guide for homeowners and learn more. Or check out the Department of Treasury's guidance on clean energy.

Are 'free solar panel health checks' a scam?

We're regularly contacted by customers, who have received an unsolicited call or letter from another company, offering them a 'free solar panel health check' or warning about their solar PV system being at risk of failing. This is a common scam.

Are solar leases and PPAs a scam?

No, not all leases and PPAs are scams. However, they seem to be a breeding ground for deceptive and predatory practices, including the old "government is paying people to go solar" scam. Related reading: Solar Leases vs. Solar Loans vs. Solar PPAs

Are 'fake' solar companies a scam?

Beware of any company asking you to make a big deposit before they have completed their installation. This is one of the most common ways 'fake' solar companies have targeted consumers - whereby they take a hefty deposit and then never turn up to carry out the installation. This is common solar scam.

How do I know if a solar company is a scam?

Be wary of solicitors. Always verify the identity and credentials of anyone claiming to represent a solar company. Unscrupulous solar companies may employ aggressive or dishonest sales tactics to close deals quickly, especially if the proposed solar installation isn't in your best interest.
