It is blast-proof and fireproof, can protect the battery better. Useful for storage, travel and during charging. Lithium battery protection, all kinds of battery protection, charging protection.

A fireproof battery bag is designed for Lipo batteries. It may be used when Lipo batteries are charging, on the go, or in storage. In addition to being fireproof, a battery bag may be waterproof and explosion-proof. Some bags are capable of withstanding fire and heat up to 1,000&#176; F (550&#176; C). They commonly feature a fire-retardant exterior ...

Invest in special fireproof boxes or safety containers designed specifically for the storage of lithium-ion batteries. These offer additional protection from fire and can limit the spread of fire and smoke in the event of a problem.
