The company is excited to provide new jobs in Washington and become a more prominent player in North America's expanding maritime electrification market. Washington's favorable business environment and proximity to key customers played central roles in the decision-making process regarding the location of Echandia's new facility.

Swedish battery maker Northvolt, once a leading player in Europe's electric vehicle battery and energy storage markets, is now grappling with severe financial difficulties. The company is reportedly considering filing for bankruptcy protection under U.S. Chapter 11 laws--or even declaring outright bankruptcy, according to

sources.

OverviewHistoryStructure, partnerships and ownershipLocationsExternal linksNorthvolt AB is a Swedish battery developer and manufacturer, specialising in lithium-ion technology for electric vehicles. Founded in 2015 by two former Tesla executives, it commissioned its first manufacturing plant in Skellefteå, Sweden in 2021 and has announced plans for five others in Europe and North America.

Swedish battery maker Northvolt said Wednesday it created a lithium-ion battery cell, the first by a European company, and plans to ship it to companies to power electric vehicles next year.

Find out how Swedish battery manufacturer Northvolt has become the first company outside China to achieve a sodium-ion battery with 160 Wh per kg of energy density, the company told Fastmarkets on Tuesday November 21.

The next step is a lithium-ion battery factory in Skellefteå, northeast Sweden, which will employ up to 1,400 people and be a stepping stone to further battery production ...

The Swedish marine electrification equipment provider Echandia will establish a battery factory in Washington state, saying the move is a response to rapidly increasing demand in the American market.. According to Echandia, the U.S. government, shipowners, and operators are increasingly recognizing the financial and environmental benefits of reducing or eliminating ...

It's here, just south of the Arctic Circle, where a Swedish startup called Northvolt has launched its bid to power electric cars around the world. Formed seven years ago, Northvolt is the first...
