Sidley Austin represented H.I.G. Capital in the transaction, and Vinson & Elkins represented Greenflash Infrastructure, LP.H.I.G. Capital ("H.I.G."), a leading global alternative investment firm with \$65... Standard 1 Year Membership Required. You must be a Standard 1 Year member to access this content.

The role of infrastructure in the Philippines is critical to promoting sustainable economic growth, improving regional connectivity, and achieving low-carbon climate solutions in the country. The Philippines is one of the most vulnerable countries to climate change, due to its high exposure to natural hazards, dependence on climate-sensitive natural resources, and vast coastlines.

Evaluating many strategies using a rapid scenario screening framework. The viability of green infrastructure to manage urban flooding was tested using the rapid scenario screening framework presented in Webber et al. (Citation 2018a) and validated in Webber et al. (Citation 2018b).The framework applies a simplified representation of catchment land use and ...

An affiliate of investment firm H.I.G. Capital has acquired a controlling interest in Texas-based Greenflash Infrastructure, which develops, finances, owns, and operates grid-scale energy storage.
