

Guernsey astronergy solar panels review

Does Astronergy have a warranty?

In 2019 Astronergy increased their product warranty to 12-year and 25-year performance warranty for most of their solar panels which remains the case for the ASTRO 5 semi solar panel which is directed at the commercial market.

Are Astronergy 345W solar panels a good choice?

Astronergy's 345W solar panels offer the best value on the market right now. If maximizing your budget is your primary goal, Astronergy's pricing is among the most competitive of all Tier 1 solar panel manufacturers. In this article, we'll review the Astronergy 345W solar panel and go over its ideal use case.

Are Astronergy panels a good choice?

The main appeal of Astronergy panels is their low cost-per-watt. If you have plenty of space to build your system, Astronergy's 345W panels are the most cost-effective option on the market. At 70 cents per watt, you won't find a better value from any other Tier 1 manufacturer.

Who makes Astronergy solar panels?

Founded in 2006, CHINT Solar has grown into a significant player in solar panel production. It has seven manufacturing facilities across China and another in Thailand, and has 13,000+ employees. The firm had shipped more than 100GW of Astronergy module capacity as at May 2024. The Astronergy brand entered the Australian market around 2012.

Are Astronergy solar panels reliable?

Tier one means banks and financial organisations are willing to lend money to large scale solar energy projects using those panels. It's not a direct measure of quality, but panels that are crap aren't going to get tier one status, so you can be confident these solar panels are most likely reliable. Conventional Astronergy solar panels have:

Are Astronergy solar panels a good choice in Australia?

Astronergy solar panels have been available for home installations in Australia for a few years now and are priced firmly at the budget end of the market. While they've done well consistently in some third-party testing overseas, I'm struggling to get enthusiasm from installers I trust about their performance or Australian support.
