Jul 20, 2019 #7 I just pulled some of these out of a laptop battery pack. LGABB4185.Gray wrapper.Came off the charger at 2564 mAh. Wish I knew which model pack ...

Warning: The information in this thread was obtained from various sources on the Internet, including any datasheets linked below, and is provided for reference only is not guaranteed to be accurate. To prevent fire or personal injury, never charge or discharge a cell before verifying the information yourself using the original specifications sheet provided by the ...

Bonjour ; tous, cela fait un moment que j'ai pu me connecter faute de temps mais aujourd'hui je me reviens avec un projet de batterie. Etant toujours novice sur la conception d'une batterie, j'aimerais savoir si l'un ou l'une d'entre vous prendra le temps de m'aider pour réaliser mon projet.

So...I guess now the question is whether my "hybrid" idea will work at all or produce the results I think it will. Maybe I will be the guinea pig on this one. I'm thinking to ...

Not a reclaimed cell but I thought I'd post this anyways, it's got a good price per kWh for new cells (\$183/kWh for qty 200 including shipping from China, or \$5/cell with free shipping on eBay in the US, as low as \$4/cell for 200 qty).

Hi, I have a dead 2F8K3 DELL battery with eight ICR18650-30B cells inside (picture below). I want to replace these cells because I can't find any decent replacement battery anywhere. I'm not familiar with cell's specs and I don't understand what the "2E94" line means. I found similar cells on...

to disassemble 36v 5.2 ah Taking me a while to disassemble the first battery tried to save the bms. looks like these were tube batteries for bikes. will report how the first cells results when tester is done. The battery was at 31.1v so 3.11v a cell Later floyd

Hi, I am new to this forum. I am a PhD student in Edinburgh University, UK. I am struggling to find lithium ion battery data pack to use for simulation in Matlab Simulink. I am designing an microgrid with an energy storage system comprising on PV array and retired Electrical vehicle battery. I...

Back in 2017, as the community started to grow, we began speculating how many cells have been recycled and put back into use that would have otherwise ended up in landfills, discarded, or melted down for scrap. This led to the creation of the Cell Counter. Since then, we have tracked over 350...

Well I shouldn't say unfortunately more of a guinea pig with the first shipments. From the beginning I didn't trust the database, so I would copy and paste the raw data from the MCM into an excel sheet, and manipulate the data from there. ... secondlifestorage The probes on my YR1030 which were chintzy at best but did last and are still ...
