Home Assistant Community Lux sensor. Hardware. jwadsley December 20, 2021, 5:29am 1. Looking for a sensor that would register the amount of light in a room, and if its below a number the lights in the room would turn on when a door is opened. Not necessarily looking for a motion sensor, but just a lux sensor that isn"t over say $20 USD. ...

Looking to integrate luxpower ac battery inverter into home assistant - i see a guy on these forums found some code to get it working but hes not responding - anyone done this please ? ... Hi All, I would just like to confirm that the solution to LXP integration into home assistant by Guy works a treat! I have been using it for

a couple of ...

The best way to get this is fixed is by creating an Issue here: Issues · home-assistant/core · GitHub Make the SMA codeowner aware of this problem. Maybe this is already fixed on the latest pysma-library: I see that v0.3.5 is used at present in HA Core, on Pypi the latest version is v0.4.3.

5. Added the Solar Assistant integration thru MQTT in Home Assistant Results and observations: 1. EG4 monitoring is SLOW - 3 minutes between data refresh 2. Solar assistant is 1 second refresh and far superior in every way 3. Home Assistant is the tool of choice for me.

Hi, I have a couple of Lux sensors throughout the house and have Hue lights everyone. I"m now building a Node-Red flow to turn the lights on when it"s dark enough. But i have a problem, as soon as i turn on the lights, the LUX value in the room goes up, and the flow turns it back off on the next run. How do you handle this in flows?

Good afternoon, i do hope that the personal issues are sorted and you are ok. I emailed i think last Friday and another person did that let me know, but i hadn"t previously posted on here to let you know i was emailing. I wondered if you may have received my email. No rush at all as its obviously your personal time you are using to help people with but i just wondered if ...
