

Who is responsible for electricity supply in Eritrea?

The Government of Eritrea is the beneficiary of the grant, and the Ministry of Energy and Mines is responsible for its implementation. Eritrea experiences inadequate, unreliable, expensive and polluting electricity supply. The available capacity is 35 MW for a peak demand of about 70 MW.

What are home power solutions?

Home Power Solutions has the clear goal of revolutionising the world's largest sector consuming fossil energy - building energy - which accounts for 40%. With our products, we're pioneering solar hydrogen, an energy source that's not only CO<sub>2</sub>-free, but also makes independence and security of supply possible for every home.

How will the grant help the Eritrean power sector?

Part of the grant will also be allocated to technical assistance and capacity building to improve the operational performance of the grid and ensure the sustainability of the results achieved and the overall development of the Eritrean power sector.

Can Eritrea lead the way to a sustainable future?

The world is at the tipping point for bolder steps and immediate aggressive actions. Eritrea, a country with negligible emission contribution, can potentially lead the way to secure a safe and sustainable future by taking a different path from previous development trajectories.

Basierend auf 95 Erfahrungen von aktuellen und ehemaligen Mitarbeitenden wird HPS Home Power Solutions durchschnittlich mit 4,2 von 5 Punkten bewertet. Dieser Wert liegt über dem Durchschnitt der Branche Energie (3,7 Punkte). 67% der Bewertenden würden HPS Home Power Solutions als Arbeitgeber weiterempfehlen.
