

Vietnam: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO₂ - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.

Use our free HS & HTS code lookup tool to find the tariff code for your products. Simply search using your product's name, description, or code. If you need further assistance, our customs experts are here to help. Login. Call: 855-912-0406. Import Services. Import/Customs Consulting;

Thus, most U.S. exports now face tariffs of 15% or less. However, in recent years, Vietnam has increased applied tariff rates on several products, and although the rates remain below its WTO bound levels, foreign businesses have been affected by the increases. Most of the products for which tariffs have increased are produced by Vietnamese ...
