

# I was cheated when I installed solar panels at home

Are there myths about solar panels?

Homeowners are installing solar panels in increasing numbers and reaping the financial and environmental benefits. But some are still hesitant because of myths around cost, performance and durability of panels. Here, we debunk the most common myths so that you have all the facts you need before you pivot to panels.

Should you install solar panels again if you move home?

Imagining your house filled with mess from a lengthy installation could be enough to put you off considering solar panels. But few owners complained to us about the installation being disruptive, and 80% said that they'd install solar panels again if they moved home.

Do I need permission to install solar panels?

If you live in a rented home, you'll need to speak to your landlord for permission before installing solar panels. If you own a flat within a building, you'll need to get permission from the relevant authority such as the building management company.

Can solar panels be installed on a house?

Solar photovoltaic (PV) panels can be installed on a wide range of homes. We've heard from people installing solar panels on bungalows and terraces, as well as semi-detached and detached houses. If your main house roof is unsuitable (a thatched roof, for example), solar panels can instead be installed on a garage or other outbuilding.

Why do people worry about solar panels?

Some are put off by uncertainty about costs, others believe the installation will be disruptive and many worry that solar panels will be tricky to maintain. These were among the most common questions and concerns people had about getting solar panels, according to a government report in July 2021.

Can a landlord install solar panels?

Solar panel installation is generally simpler if you own your home; however, if you're a leaseholder or in a shared-ownership property, you may be able to install solar PV with the permission of your freeholder or landlord. Solar panels can be installed on blocks of flats, but this is often done by the landlord or freeholder.
