What is the Solar PV Inverter Buyer's Guide?

The Solar PV Inverter Buyer's Guide is a resource that provides information on the latest technology and new products from solar PV inverter manufacturers. Our annual Solar PV Inverter Buyer's Guide is a chance to check in with all of the inverter manufacturers - from the market leaders to the up-and-comers - to get a sense of how their technology has evolved.

What type of solar inverter do I Need?

String inverters are the most common inverters used in residential solar systems. These inverters connect to multiple solar panels and convert your home's DC energy to AC electricity. String converters work best in homes with little to no shading and simple solar panel designs. Can I replace a solar inverter myself?

What is a solar inverter?

The solar inverter is one of the most important parts of a solar system and is often overlooked by those looking to buy solar energy. This review highlights the best inverters from the world's leading manufacturers to ensure your solar system operates trouble-free for many years.

Who makes the best grid-connect solar inverters?

We review the best grid-connect solar inverters from the world's leading manufacturers Fronius, SMA, SolarEdge, Fimer, Sungrow, Huawei, Goodwe and many more to decide who offers the highest quality and most reliable solar string inverters for residential and commercial solar.

Are solar inverters safe?

Here's a breakdown of crucial safety guidelines for setting up and operating solar inverters: Switch off the power: Before working with a solar array, switch the solar system off to avoid electric shocks. Use the right tools: It's essential to use the right tools and safety gear for the job.

Are Micro solar inverters a good choice?

Despite the slightly higher cost, micros are becoming more popular worldwide due to several advantages over string solar inverters. While this review focuses on common string solar inverters, we would rank microinverters, such as those from Enphase, in the top 3 solar inverters and are highly recommended.
