

Israel spear power systems

What is spear power systems?

Spear Power Systems is at the forefront of providing advanced energy storage solutions designed to operate in harsh environments. With a potent blend of performance, reliability, and safety, our batteries provide optimized solutions for mission critical applications.

Who owns spear power systems?

The company has a wide range of energy storage systems suited to meet any demand. Their family of TRIDENT maritime batteries offers multiple cell chemistries in Spear Power Systems was acquired by Sensata Technologies on Aug 23, 2021. Where is Spear Power Systems' headquarters?

Why should you use spear aerial weapon systems?

Providing a new aerial dimension for instant ISR missions and loitering munitions, we enable the precision attack required to succeed on today's chaotic battlefield. Based in Israel, SPEAR has been active in the field of Aerial Weapon Systems (AWS) for defense applications since 2017.

Who is spear & what does spear do?

Based in Israel, SPEAR has been active in the field of Aerial Weapon Systems (AWS) for defense applications since 2017. A single-source supplier for several Israeli MOD programs around the globe, the company also provides military clients, organizations, and governments with its cutting-edge solutions. What makes spear a good company?

Spear was formed in 2013 as a spin-off of Dow Kokam's defense and industrial operations. Introduced Spear's G1 chemistry agnostic, scalable BMS (sBMS). Spear receives ISO9001 and AS9100 certification. Introduced Trident brand high-voltage, scalable COTS battery system for propulsion power.

Kansas City, MO, November 30, 2015: Spear Power Systems, the premier supplier of safe, reliable energy storage solutions for the most demanding applications, is pleased to announce the new Trident(TM) family of advanced lithium-ion battery storage systems for marine applications. "Trident's unique approach offering multiple lithium-ion cell chemistries with a common ...

The acquisition of Spear Power Systems advances Sensata's electrification portfolio and strategy into new clean energy markets. "We are pleased that the talented Spear Power Systems team, including over 40 highly ...

The Spear is the newest generation of RMS technology, developed by Israeli defense company Elbit Systems. (Photo: Elbit Systems) Israeli defense company Elbit Systems has announced the unveiling of a new ...

Israel spear power systems

The Spear is the newest generation of RMS technology, developed by Israeli defense company Elbit Systems. (Photo: Elbit Systems) Israeli defense company Elbit Systems has announced the unveiling of a new vehicle mounted mortar system called Hanit, or Spear. The Spear is the latest in a new generation of technology of the CARDOM mortar which is used by ...

Trident Versa is Spear Power Systems' proprietary commercial off-the-shelf (COTS) battery solution, renowned for its reliability and innovation in battery power storage. Since its introduction in 2015, Trident Versa has been a benchmark in energy storage systems, delivering consistent performance without any fires or major incidents.

Iranian UAV threat leaves Israel's defence industry searching for answers; Maris-Tech confirms customers signing up for Jupiter Drones codec and AI-powered system ... Babcock has signed an MoU with propulsion experts Cosworth to investigate the use of hybrid power systems in military vehicles and will begin with integrating a Catalytic ...

Spear Power Systems designs and manufactures safe, reliable lithium-ion battery storage systems for demanding applications including defense, marine propulsion, oil & gas, and mining. The company has a wide range of energy ...

GRANDVIEW, Mo. Spear Power Systems, Inc. (Spear) has provided an advanced lithium-ion battery system to Raytheon for the a counter-unmanned aerial system (CUAS) delivered to the U.S. Air Force. Unmanned. Story Autonomous engine systems for helicopters depend on standards-based controls. November 26, 2024 ...

Who is Spear Power Systems. Founded in 2013 by experienced energy storage entrepreneurs Jeff Kostos, President & CEO, and Dr. Joon Kim, CTO, Spear designs and manufactures safe, high performance energy storage systems (ESS) for clients with some of the world's most demanding marine, industrial, and defense applications. Based in Kansas City, ...

The boldest ferry electrification effort in the U.S. will use American-made lithium ion batteries from Spear Power Systems, Inc on new Hybrid Electric ferries. Washington State Ferries is pursuing a groundbreaking initiative that will electrify a total of 16 new vessels and convert 3 existing vessels to plug-in hybrid electric propulsion by 2040.

The anti-ship missiles were supplied to Estonia by Proteus Advanced Systems, a joint venture between two companies, Israel Aerospace Industries (IAI) and ST Engineering Land Systems from Singapore. "We are honoured to equip the Estonian Defence Forces with Blue Spear type missiles," said Ron Tryfus, CEO of Proteus Advanced Systems.

Spear Power Systems is headquartered in Grandview, MO. What is the size of Spear Power Systems? Spear Power Systems has 61 total employees. What industry is Spear Power Systems in? Spear Power Systems's primary industry is Electronic Equipment and Instruments. Is Spear Power Systems a private or public

Israel spear power systems

company? Spear Power Systems is a ...

Spear Power Systems" energy storage systems are cell-agnostic and include proprietary battery management and monitoring for all lithium-ion chemistries from multiple battery suppliers offering high energy density, modular architecture, light weight, and extreme safety and reliability. "The acquisition of Spear Power Systems enables us to ...

Global Syndicate Invests in Advanced Battery Innovator Spear Power Systems - Spear Power Systems GRANDVIEW, Mo., September 23rd, 2019 - Spear Power Systems, Inc. (Spear) raised growth capital from a global syndicate of advanced energy investors to fund expansion of the battery maker's global...

Spear Power Systems is a company that provides energy storage solutions. It designs, distributes, and manufactures lithium-ion battery systems and cylindrical cells. The company caters to the aerospace, defense, industrial, and marine ...

Spear is an expert in the robust, safe integration of lithium-ion cells into high-capacity, high-voltage strings. Spear's commercial off-the-shelf (COTS) solution provides modular building blocks for the mechanical integration of prismatic pouch cells into energy storage systems from 100 VDC up to 1250 VDC with systems up to 10 MWh.
