Will gas be a part of Jersey's Net Zero future?

Gas will continue to have a place in the energy mix as it is vital for the success of our island's energy transition - and we plan to be a big part of Jersey's Net Zero future so we can continue to provide energy for every generation. Island Energy has been providing energy for every generation for almost 200 years.

Who is Island energy?

Island Energy has been providing energy for every generation for almost 200 years. Read about our history in Jersey and our journey to Net Zero.

What happened to Jersey's gas supply?

Reconnection of gas supplies has begun in Jersey six days after customers were cut off, the government has confirmed. Up to 4,500 customers have been without a supply since Saturday, after a software failure forced Island Energy's (IE) plant to be shut down.

Will Jersey's Gas Company do impact assessments after it shuts down?

Jersey's gas company says impact assessments for affected customers will be done after supplies are restored. Up to 4,500 customers have been left without supplies since Island Energy (IE) was forced to shut down its gas plant in St Helier on Saturday.

Who owns Jersey Gas Light Company Limited?

The Jersey Gas Light Company Limited was incorporated and registered. The Chairman was J. A. Perree and Harry Morris was Managing Director. The company's strapline was 'Forging Ahead'. It was decided to manufacture mains gas from Liquefied Petroleum Gas (LPG) Butane and Propane.

Are Island gas supplies being reconnected?

Minister for Justice and Home Affairs Helen Miles said the "welcome news" that supplies were being reconnected followed a "very challenging period for islanders". "Ministers and officials have been informed that Island Energy have begun restoring the gas supply to commercial, priority and vulnerable customers," she said.

InterContinental Energy | 8,142 followers on LinkedIn.
