Pavol, Martin, and Laurens founded Newton Energy Solutions (NES) to revolutionize energy storage and drive a sustainable future. Pavol, a technologist, realized that to achieve a truly sustainable society, it was necessary to translate research into practical solutions, focusing on energy storage to unlock the potential of renewable sources.

The goal of Newton Energy Solutions is to contribute to creating a sustainable future with the help of a home storage solution that's available and affordable to all. The storage system is relatively small and, apart from in homes, it can also be used for hot water and some heating of buildings such as hotels, gyms or offices.
