The S120 is a very efficient panel, and I've seen 110W output even during a Canadian winter (weak solar energy). The caveat is that I had to measure that output by connecting the S120 to another brand of power station and the LCD screen (which is otherwise great) does not have a power readout for the input.

Solar Panel Tilt Angle in Kazakhstan. So far based on Solar PV Analysis of 6 locations in Kazakhstan, we've discovered that the ideal angle to tilt solar PV panels in Kazakhstan varies between 44°; from the horizontal plane facing South in Astana and 37°; from the horizontal plane facing South in Almaty.. These tilt angles are optimised for maximum annual PV output at ...
