

current state of solar energy in Kosovo while focusing on challenges and opportunities. 8 FOUNDATION The European Union (EU) is set on a transformative journey of becoming the first climate-neutral continent by 2050, within the framework of the European Green Deal.

Kosovo\* issued a contract notice for investors interested in building and operating a solar power plant on public land. The location in Kramovik was determined for 95 MW to 105 MW in connection capacity.

The solar power plant will help save more than 130,000 tonnes of carbon dioxide emissions annually. In total, 152 GWh of green electricity will be produced annually, benefiting Kosovo households, public institutions and companies.
