

What is Iraq's solar energy strategy?

Iraq's solar energy strategy should be based on attracting foreign direct investments with strong commitment to diversifying its energy mix and to become energy independent bolstered by its willingness to collaborate with international array of local and foreign partners. Iraq's path forward is not, however, free of potential pitfalls.

What are the challenges and obstacles for solar photovoltaic power generation in Iraq?

Horizontal solar radiation in Iraq (kW/m²;) by solar GIS map . This study presents a review in the challenges and obstacles for implementation of solar photovoltaic power generation in Iraq. These problems that confront Iraq are represented by a technical, financial, political barriers and other.

Does Iraq need solar energy?

Although Iraq tends to promote the country's solar energy in two ways: Utility-scale PV units could lead to a reduction in burning of oil and gas, and rooftop solar panels would help individual households reduce their own dependence on "expensive and polluting neighborhood generators". However, there are a lot in between of untapped distributed

Does energy rationalization reduce electricity consumption in Iraq?

The results of energy rationalizing show that the reduction of the domestic electrical consumption in the summer season in Iraq is about 52% of total power and 25% in a winter. ...

How can small and medium scale solar be used in Iraq?

solutions of small and medium scale solar, which are more than rooftop but less scaled than utility scale such as distributed generation, which has not been addressed so far in Iraq, and could participate in relieving the overload on the national grid, achieve de-centralization, create jobs, develop SMEs, reduce electricity bills on the long-term.

Why does Iraq need a solar map?

The solar map will help to identify Iraq's best solar resources, informing and facilitating renewable energy planning across the country. The map has been very important for showcasing Iraq's potential solar resources, key information about land availability, populated areas and grid access.
