renogy . Renogy produces several different power stations and chargers, but we especially like the Lycan  
Powerbox, a solar power solution that's only a little bit bigger than a suitcase comes with an easy-grip handle  
and heavy-duty wheels, making it one of the most portable solar generators around while still offering 1200W  
of output, which is enough power ...

The size of a solar generator required to power a whole home depends on your family's energy consumption.  
The typical American household uses around 30 kilowatt-hours (kWh) of electricity per day, but using a  
ballpark figure when investing in a solar generator is never a good idea.. Determining Your Average  
Electricity Consumption

All the fuel that a solar generator needs is going to come directly from the sun. You don't have to move around heavy (and potentially dangerous) gas cans or bottles of propane with a solar generator. All you have to do is set it up in direct sunlight and you are off to the races! On top of that, solar generators are incredibly quiet.
