

Longi 285w photovoltaic panel size

What is a Longi 545W solar panel?

The Longi 545Watt Solar Panel is a 545W monocrystalline module with 144 cells (6x24) from the Longi brand. It is one of the leading manufacturers in the world photovoltaic industry.

Why is Longi a leader in the semiconductor industry?

*LONGi took the industry lead in standardizing wafer size and achieving 100% diamond wire cutting of mono silicon wafer. *In 2021, the company's global sales performance, market share and brand influence ranked it 1st in the world, with its total shipment volume of domestic and exported modules exceeding 2nd place by more than 10GW.

Is Longi a good company?

LONGi has consistently maintained industry leading ability to mitigate risk and adapt to market changes and, as part of operations, the company prioritizes corporate financial health and stability, with its asset-liability ratio at a low level compared to other global PV manufacturers. Bifacial power generation .

What makes Longi a sustainable company?

LONGi always had sustainable management as a core criteria for business decision-making, including continuous investments in innovation and research, advocating an open corporate culture and promoting scientific institutional research.

What is Longi reliability testing?

Based on the research results of well-known research agency standards and third-party institutions in the industry, LONGi has established a variety of differentiated reliability testing methods to evaluate product and material reliability more quickly and effectively. LONGi is committed to the standardization of materials.
