Brazilian electricity company Matrix Energia has completed Brazil's first green debentures issuance worth \$100m Brazilian reais (\$17.9m) to build 224 megawatt-hours (MWh) of battery energy storage capacity by 2025.. This is the first green issuance for a battery energy storage system (BESS) project in Brazil and the second for a renewable project by Matrix ...

The Central and South Pacific have significant wave energy resources distributed through the region that are currently not being explored. Even though the wave energy resource in the Pacific has been studied, there is limited knowledge on the potential obstacles when inserting this new energy source into a unique and unexplored environment.
