Namene celebrates another impressive milestone. Our climate projects have now distributed over 700,000 solar lights to off-grid and peri-urban families living without electricity in Zambia, Zimbabwe and Namibia. The solar lights replace kerosene lamps, and provide clean, sustainable solar-powered light for working, studying and socialising ...

Their innovative climate projects use climate finance to subsidise the cost of solar lights for customers in rural areas who cannot afford solar. Namene tackles emissions from kerosene lamps and provide truly affordable energy access with carbon credits, generated by the mass deployment of our award-winning solar lights.

In addition to the roving distribution team, Namene has also opened five Namene branded stores in commercial retail spaces across all five of Namibia's regions, which sell and service Namene lights and products for rural customers. In ...

Certified by. Essential energy access for millions. Our lives depend on access to energy. It's something many of us don't think twice about, but for 675 million people worldwide, including 590 million in sub-Saharan Africa, access to electricity is still not a reality.. For too many families, relying on homemade kerosene lamps or candles is their only option.

In addition to the roving distribution team, Namene has also opened five Namene branded stores in commercial retail spaces across all five of Namibia's regions, which sell and service ...

Namene Solar's carbon credits will finance solar lights to serve every household without grid access across the entire country with Namibia's first Gold Standard project. Namene Solar today announced their latest carbon offsetting project in Namibia, certified by Gold Standard. It's the first project in Namibia to receive the certification. It will see climate finance ...
