The Solar Revolving Fund is a credit facility established by MME in 1996, and to stimulate demand for the utilization of renewable energy technologies in the rural areas, especially for communities living in off-grid areas, but also to urban clients. SRF is an element of the Off-Grid Energization Master Plan for Namibia (OGEMP) whose objective ...

NAMIBIA . Though it is large, the southwestern country of Namibia has a relatively small population -- and an interesting energy landscape. Namibia has a history of load shedding problems and has long relied on imported power from Eskom, on top of a low electrification rate of 56.3% (as of 2020). The drought at the Kariba Dam, the world"s largest reservoir and a major ...

Namibia has one of the highest solar irradiance levels in the world. With approximately 300 sunny days and over 3,000 sun hours per year, the annual solar irradiation reaches values of 2,200 to 2,400 kWh/m². This means that solar PV systems in Namibia generate twice as much electricity compared to similiar systems in Germany. Each unit of ...

The Ginkgo Solar Birdbath creates a soothing and relaxing atmosphere on your patio, deck, balcony or in your garden. It comes in an elegant weathered stone finish and features ginkgo leaves stamped around the middle base of the birdbath.
