

Should guidance on solar PV be included in the National Policy Statement?

The solar industry very much welcomes the addition of guidance on solar PV to the National Policy Statement for renewable energy infrastructure. However, there are several provisions which could be strengthened, which we have outlined below.

Are solar farms covered by a national policy statement?

Although solar farms are not covered in the existing suite of National Policy Statements, the draft National Policy Statement for renewable energy infrastructure covers solar farms at the scale of nationally significant infrastructure. The draft National Policy Statements are currently undergoing Parliamentary scrutiny.

What are energy national policy statements?

Energy National Policy Statements provide planning guidance for developers of nationally significant energy infrastructure projects. The energy National Policy Statements cover: The guidance makes it easier for decision makers, applicants and the wider public to understand: The 2023 revised NPSs (EN-1 to EN-5) came into force on 17 January 2024.

When did the national policy statements on energy come out?

The then Energy and Climate Change Committee conducted an inquiry into the six energy NPS approved in 2011. The Committee published its report The revised draft National Policy Statements on energy on 18 January 2011. HC 648 5 Energy White Paper, Powering our net zero future, published 14 December 2020

When did the national policy statements on energy infrastructure come out?

4 National Policy Statements for Energy infrastructure, published June 2011. The then Energy and Climate Change Committee conducted an inquiry into the six energy NPS approved in 2011. The Committee published its report The revised draft National Policy Statements on energy on 18 January 2011. HC 648

Should a target for solar generation be included in the NPS?

This equates to roughly 40GW of solar by 2030, and the solar industry body, Solar Energy UK, has demonstrated in its 2021 report "Lighting the Way" that this target is possible. We recommend that a target for solar generation should be included in the NPS.

Introduction to the National Wind Solar Hybrid Policy. The National Wind Solar Hybrid Policy is a big step for India's move to renewable energy. It aims to meet the growing need for clean power across the country. ...

Ministry of New and Renewable Energy has issued National Wind-Solar Hybrid Policy with an aim to boost renewable power generation by promoting new projects as well as hybridisation of existing ones. What is Solar ...

The central role envisaged for solar power generation in supporting the decarbonisation of the UK energy sector is reflected in a draft revised planning policy designed to shape decision making on major ...

1.8 The National Electricity Policy aims at laying guidelines for accelerated development of the power sector, providing supply of electricity to all areas and protecting interests of consumers ...

the limited power generation and supply available in Nigeria. Fortunately, ... eventual development and submission of the National Policy on Renewable Energy and Energy Efficiency to the ...

Implementing Non-Solar RE Projects ... increase RE contribution in the national power generation mix; To facilitate the growth of the RE industry; To ensure reasonable RE generation costs; To ...
